Course summary

We now live in a global village where distance is no longer a barrier to commercial or social contact. This free course, IT in everyday life, will enable you to gain an understanding of the information and communication technologies that drive our networked world and how they now permeate our everyday lives.

Learning outcomes

By completing this course, the learner should be able to:

- know the meaning of all the terms highlighted in the course
- understand the concept of the 'network society'
- have an awareness of how IT impacts on everyday life.

Completed study

The learner has completed the following:

Section 1

The network society

Section 2

Your networked life

Section 3

Conclusion
